## How It All Started

It all started with Daniela; an eight-year old girl with big brown eyes that sparkled with each smile, an infectious giggle that made you laugh along with her, and an enthusiasm and outlook for life that was contagious.

A little girl with unbounded optimism who was not afraid to sing out loud because she knew the sun would come out tomorrow.

Daniela had the ability to give hugs that would make a friend feel appreciated and a stranger feel loved. She also had a generous spirit, who loved life and taught us all how to live.

Inspired by an amazing little girl, the Daniela Conte Foundation continues Daniela's work of bringing happiness to children with cancer and their families. Right before she left us, Daniela gave us a list of things "to make us happy" for when we needed it.

Taking a cue from this list, we knew we had to continue Daniela's mission and started the Daniela Conte Foundation.

**Daniela Conte Foundation is a registered 501(c)(3). We are an all-volunteer organization that depends on generous donations in order to provide our "hugs".**

Please help spread the word and share Daniela's hug boxes.

The Daniela Conte Foundation brings happiness and support to children with cancer and their families. From giving special moments for the family to share, to providing items to make the long days in the oncology clinic feel shorter, the Daniela Conte Foundation works to bring happiness, hope and “hugs” to children fighting cancer and their families. We also provide financial assistance to families experiencing financial hardship as a direct result of a child’s cancer treatment and care.

## What’s a Hug Box?

We created several boxes based on Daniela’s list of things to do to make you happy. We supply them to local children’s hospital or ship them directly to children when requested.
